APPEAL TO DONATE

Militant attack at Pulwama (J&K) on the CRPF Jawans was one of the most brutal and hurting for all of us. Our Jawans have not only lost their lives but their families are left in deep trouble. Most of the Jawans belong to poor economic background and they were the single earning member of their family.

If we cannot fight at frontier for our country, then at least we should come forward with our supporting hands to support our National Heroes. It is our moral and social responsibility to stand with their families and help them to overcome with this tragic situation.

“MADE EASY For You” take this initiative & will make survey and shortlist some of the most needy and trouble facing families out of 40 Jawans who have lost their life in recent attack at J&K and will try to rehabilitate through moral and financial support for good education & employment of their Children.

Volunteers are also invited who can help by visiting their native places & making survey to identify the most needful families and their needs.
